

ARGONNE

How to Share Photos on Konstella

Everyone that has registered for an account on the Argonne PTO Konstella site are welcome to upload photos of Argonne events, field trips, and classroom activities to your child's classroom page.

1. Use the mobile app or web browser to login to Konstella.
2. Select the + 'Create' icon and select create a photo album.
3. Select your child's classroom and give the album a title.
4. Upload your favorite photos from the day to share with your child's class.

Important: If you have any questions about posting a particular photo, please send a message to your room parent and ask your child's teacher. We request that you keep all photos confidential within our community as some families have requested that their child is not photographed or videotaped.

How to Download High Resolution Photos

Download high resolution photos to print or to put in the yearbook. Browse through a photo album and choose a photo. Select the Download button to download the high resolution file.
