Our Program

The Argonne Chinese After School Program (CASP) was founded and established by parents in 1999. This language enrichment program provides Argonne students with an opportunity to learn Chinese as a second language and enrich their understanding and appreciation of Chinese language, customs, and culture.

Our instructors have more than 20 years of experience in teaching Chinese. We focus on developing student's listening, speaking, reading, writing, and Chinese culture. Our instructors and staff believe that the best way to learn a language is through play, music, songs, and art.

Program Calendar

CASP provides Mandarin language instruction classes and enrichment for Argonne students grades K-5.

The program operates on the same extended year calendar as Argonne Elementary.
